1. I saw the new moon out our window last night.

New moon. Cat's swoon.

C

That little silver sliver made me feel all right.

New moon. New tune.

Am

'Cause I've been feeling odd for a mighty long time.

F

But that shiny piece of rock made me feel just fine.

New beginnings, new hope for us.

2. Could have been a dream but I saw it crystal clear.

New moon. Eyes zoom.

Winking down at us from a heaven so near.

New moon. Sparkling ruin.

Like a night rainbow, a sign from up above.

A little light burning to rekindle our love.

New glimmer of hope for us.

3. The whole world waiting under a darkened sky.

New moon. Jules Verne.

A little light peeking like an opening eye.

New moon. Your turn.

Earlier we watched the sun go down.

Proof that the world is still turning around.

New days. New hope for us.

4. I saw you running smiling 'cross the morning lawn.

New moon. Cartoon.

I followed knowing in the drowsy dawn.

New moon. Raccoon.

I heard the sprinklers. I felt the grass.

I ran slower to make the moment last.

New whispers. New hope for us.
